Serie FS

BRASS Y TYPE STRAINER

FSYT

The filters FSYT are threaded Y filters, with a body made of Brass, which are manufactured in accordance with severe product norms. They are a prerequisite for protecting pumps, valves, backflow preventers and pressure reducing valves against dirt (rust, welding parts, solids).

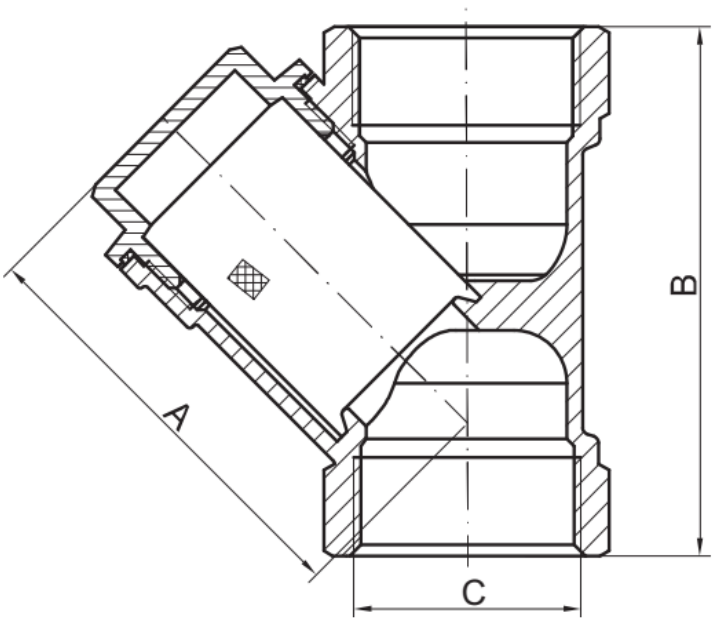

The filters are suitable for chemical, food and industrial plants. Also for heating and cooling (HVAC), for the distribution of water, and for agricultural purposes

YES: installation in horizontal and vertical positions.

Application fields

WATER CONDITIONING INDUSTRY DRINKING WATER HEATING
