Serie F.1500

PRESSURE GAUGE

F.1520

F.1520 Pressure gauge is a pressure gauge filled with glycerine, to improve its performance in unideal conditions. It is used for pressure measurement in many industrial applications. ...

Properties

Liquid filled	Glycerine fillable
Dial	4" / 100mm (Option: 2.5" / 63mm)
Case	Stainless steel 304
Window	Plexiglass
Internal	Copper alloy (Option: Stainless Steel)
Connection	Bottom connection
Accuracy	2.5% or 1.6% or 1%
Thread	1/2" BSP brass
Scale Range	0/+10 | 0/+16 | 0/+25 Kg/cm²
Vacuum Scale Range	-1/0 | -1/+5 | -1/+9 Kg/cm²
Working Pressure	75% of full scale
Working Temperature	-20°C ~ 60°C (for Stainless Steel Internal: -20°C ~ 120°C)
Standard	EN 837-1
